About HDS

Founded in 1998, HDS Network is a company specialized in providing automotive climate control systems for all Brazil. We have partnerships with the auto parts industry's leading brands and manufacturers that develop quality and efficient products for the main automotive lines. We also have international extensions that allow us to reach the world.

Lines

We offer air cooling systems focused on providing comfort, agility and precision for light, heavy, agricultural, construction, utilitarian and mining lines.

Contact

We have stores strategically positioned throughout Brazil to better serve our customers. Contact us:

Mission

Vision

Act in a socially responsible manner as a consolidated company in the auto parts business, supplying quality products at competitive prices. We prioritize agility, safety, and punctuality in our channels and points of sale, as well as personalized service to better satisfy consumers all over Brazil.

To strengthen the positioning of our brand, following market trends and demands, focusing on the expansion of our line of business, providing the best experience to customers all over the world.

values

We strive for quality and excellence in providing our services, guided by business ethics, by transparency in our communication, by respect for our customers, and by the social, environmental, and legal responsibility of our actions. We direct our energy based on an organizational culture focused on our employees.

To this end, we invest in:

To value people and relationships;

An inclusive and diverse environment;

Cooperation;

Encouraging knowledge;

Autonomy with responsibility;

Environment to innovate;

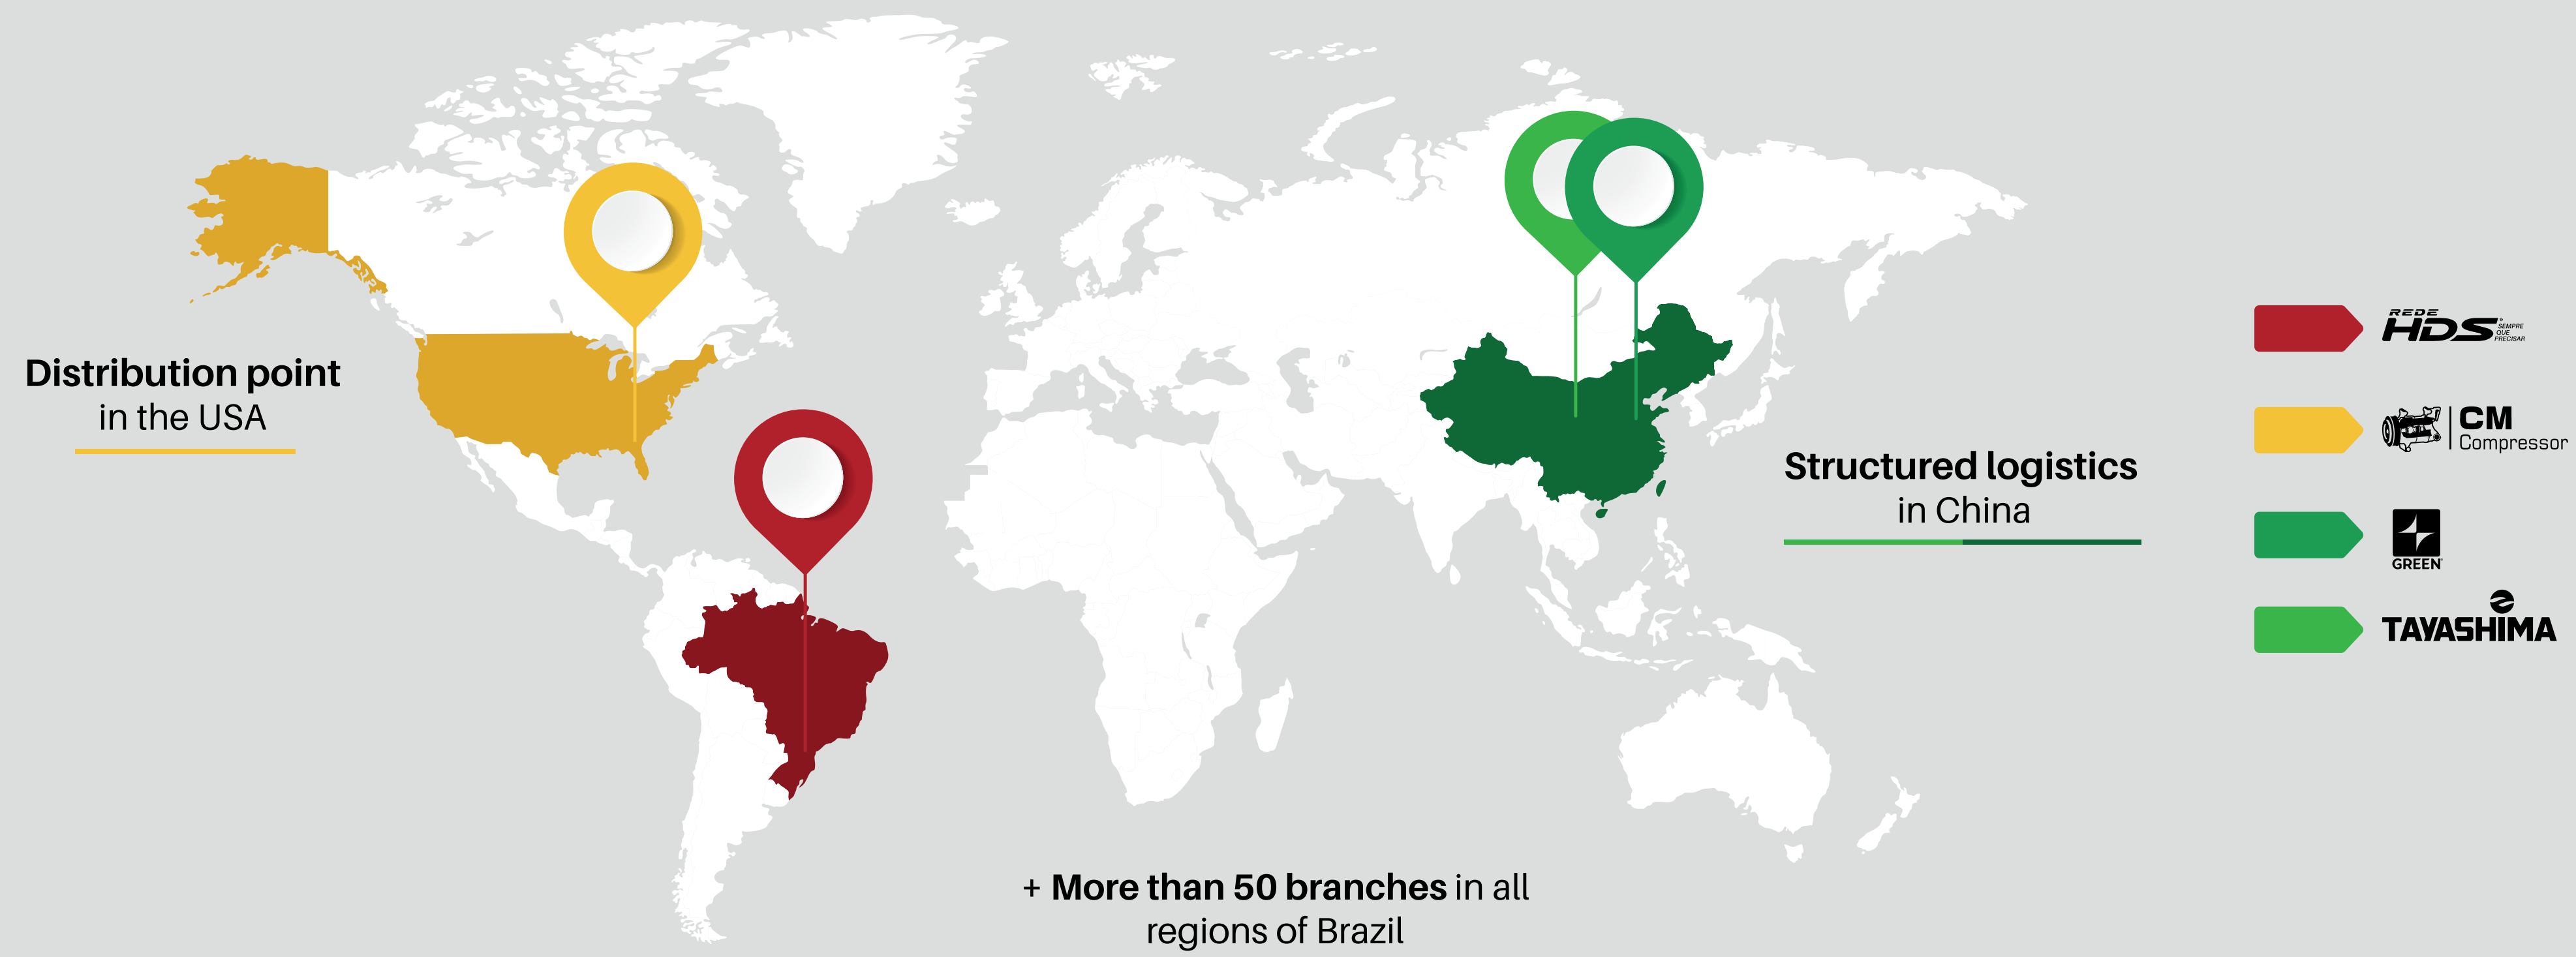

Positive intention;

Focus on the solution and the result.

Global operations

We operate in more than 50 units (physical stores and e-commerce points of sale), strategically distributed in several regions of the country to better serve our customers. In each of these points of sale, we prioritize agility, safety, and punctuality in the services provided by our company.

Strategy

HDS' main strategy is to strengthen its position, based on the expansion of its business. To do this, the company's strategic planning aims

- The expansion of the business line, to act as a distribution center for products and services in the auto parts industry;
- The constant analysis of market trends, bringing differentials to our product lines;
- A management focused on giving more visibility to the business and attracting new customers;
- Investments in technologies that boost sales in our physical and online channels.
